

Migration Route

Crow Social Studies
Bilingual Materials Development Center
Crow Agency, MT 1986

1. Migration started with Crow and Hidatsa as one tribe.
2. No Vitals and Red Scout went on a fast - chiefs received instructions.
3. Crow-Hidatsa settled here for a time and adopted an agricultural lifestyle and planted corn.
4. Crows moved on and eventually settled in the Big Horn Mountains and planted the tobacco seeds.
